The formulation was developed and tested in our laboratories using the specified ingredients and percentages. Assessa is not responsible for changes that may occur due to modifications made without further testing. It is the client's responsibility to verify the stability of the formula to ensure its safety and compliance with the laws and patents applicable in the country where the finished product will be used.

PROCEDURE: Add phase A to a container and start stirring until dissolved. In a container, previously homogenize phase B. Gradually add phase B at room temperature with vigorous stirring. Heat to 90 °C and continue stirring for 20 minutes with vigorous stirring. Afterwards, add phase C little by little. Keep the temperature at 90°C and mix for another 10 minutes with vigorous stirring. Start cooling and put on moderate stirring. After 40°C add phases D, E, F and G respectively, with 5 min between each phase. Adjust the pH with phase H.

FORMULA SPECIFICATION
- Viscosity: 35.000 - 45.000 (Brokifield RVT - Spindle 06/10 RPM)
- pH: 5,0 - 5,2

ASSESSA's raw materials:

CARBOGREEN PLATFORM allows us to make natural and biodegradable hydrogels with a unique sensory profile. In this formula CARBOGREEN EO is used to form a cream with an ultra-creamy, shiny and dense texture. After spreading, the skin is nourished and soft.

PLUGIN GS is a combination of sunflower, chia and jojoba oil fractions with a biomimetic composition similar to skin sebum and is a natural substitute for Silicone D5 in skin care formulas, providing a silky touch.

FRULIX CUPUAÇU offers protective, nourishing, remineralizing, and moisturizing properties; it is recommended for skin care formulations and products with moisturizing and regenerating claims.

FRULIX PEACH is rich in moisturizing mucilages, vitamins, sugars, and minerals. Recommended for skin care, its properties make it suitable for products with nourishing and moisturizing claims.

FRULIX LYCHEE is recommended for skin and hair care formulations, specifically in products focused on nourishment and hydration.

ACTIMULSI GA20 is a natural multifunctional bioactive derived from the scar exudate of Acacia senegal, which improves the sensorial properties of formulas, providing a soft touch.
