The formulation was developed and tested in our laboratories using the specified ingredients and percentages. Assessa is not responsible for changes that may occur due to modifications made without further testing. It is the client's responsibility to verify the stability of the formula to ensure its safety and compliance with the laws and patents applicable in the country where the finished product will be used.

PROCEDURE: Add phase A to a container and start stirring until dissolved. In a container, previously homogenize phase B. Gradually add phase B at room temperature with vigorous stirring. Heat to 85 °C and continue stirring for 20 minutes with vigorous stirring. Afterwards, add phase C little by little. Keep the temperature at 85°C and mix for another 10 minutes with vigorous stirring. Start cooling and put on moderate stirring. After 40°C add phases D, E, F and G respectively, with 5 min between each phase. Afterwards, mix for another 10 minutes with vigorous stirring. Adjust the pH with phase H.

FORMULA SPECIFICATION
- Viscosity: 10.000 - 13.000 (Brokifield RVT - Spindle 5/20 RPM)
- pH: 5,0 - 5,2

ASSESSA's raw materials:

CARBOGREEN PLATFORM allows us to make natural and biodegradable hydrogels with a unique sensory profile. In this formula CARBOGREEN EI is used to form a cream with an ultra-creamy, shiny and light texture. After spreading, the skin is hydrated, soft and velvety.

PLUGIN GS is a combination of sunflower, chia and jojoba oil fractions with a biomimetic composition similar to skin sebum and is a natural substitute for Silicone D5 in skin care formulas, providing a silky touch.

FRULIX KIWI is rich in mucilages, essential sugars, vitamins, bioflavonoids, other phytonutrients, and essential minerals. It possesses astringent, nourishing, and antioxidant properties, making it recommended for use in formulations designed for skin treatment, cleansing, and protection.

FRULIX PEAR is rich in vitamins, minerals, tannins, and polyphenols. Due to its nourishing and moisturizing properties, pear is recommended for skincare products aimed at providing nourishment and hydration.

FRULIX SOURSOP preserves the moisturizing, nourishing, and remineralizing properties of the natural fruit.

ACTIMULSI GA20 is a natural multifunctional bioactive derived from the scar exudate of Acacia senegal, which improves the sensorial properties of formulas, providing a soft touch.
