H	Apricot Scrub	Prunus Armeniaca Kernel Powder	4,00	Exfoliating Agent	Alpha Química
I	Citric acid	Citric Acid	qs	pH Adjustment	-

PROCEDURE: Add phase A to a container and start stirring until dissolved. Mix phase B and gradually add at room temperature with vigorous stirring. Heat to 80°C. Afterwards, in a separate container heat phase C to 70-80°C. When everything is melted, add phase C to phase A+B and homogenize. Add phase D and heat to 85°C and mix well, then add phase E little by little, mixing well. Start cooling and put on moderate stirring. After 40°C add phases F, G, and H respectively, with 5 min between each phase. Adjust the pH with phase I.

FORMULA SPECIFICATION:
- Viscosity: 45000 - 55000 cps, spindle 06, torque 10
- pH: 5,0 - 5,5

ASSESSA's raw materials:

THE CARBOGREEN PLATFORM allows us to make natural and biodegradable hydrogels with a unique sensory profile. Here, CARBOGREEN QB provides creaminess, soft and velvety touch.

PLUGIN GS is a combination of sunflower, chia and jojoba oil fractions with a biomimetic composition similar to skin sebum and is a natural substitute for Silicone D5 in skin care formulas, providing a silky touch.

FRULIX COCOA BS Recommended for hair submitted to chemical treatments. Due to its hydrating, antioxidant and dermoprotective properties, FRULIX CACAU (Cocoa) is also recommended for skin-care products. Highly concentrated, FRULIX CACAU (COCOA) is produced without the addition of solvents.

ACTIMULSI GA20 BS is a natural multifunctional bioactive derived from the scar of Acacia Senegal exudate, which has three distinct features: 1) soothing and antiinflammatory action, allowing formulation of products for sensitive skin; and 2) improves the sensory of the formulas, providing a dry touch in contact with skin. ACTIMULSI GA20 is a perfect choice for a more natural, stable,effective, pleasant and safe formulation.

NUTLIX COCO BS it's a perfectly balanced combination between a selected fraction of ecofriendly coconut water and extra virgin organic coconut oil creating a unique product that may powerfully moisturize skin and hair. NUTLIX COCO also improves skin firmness and elasticity.

This formulation was developed and tested in our laboratories with the ingredients and quantities described. This is a prototype intended to show raw materials capabilities. Assessa is not responsible for the use of this formula.
