PROCEDURE: Add phase A to a container and mix well. Add phase B and mix. Then add phase C and D mix well.

FORMULA SPECIFICATION:
Appearance: clear oil

ASSESSA's raw materials:

PLUGIN GS is a combination of sunflower, chia and jojoba oil fractions with a biomimetic composition similar to the skin's sebum and is a natural substitute for Silicone D5 in skin care formulas.

This formulation was developed and tested in our laboratories with the ingredients and quantities described. This is a prototype intended to show raw materials capabilities. Assessa is not responsible for the use of this formula.
