COOLING EYE PATCH WITH QUIDITAT NWP

ASSESSA

CODE: 03SSC17052402

WWW.ASSESSA.COM.BR

Eye Patches are anti-fatigue hydrogel patches enriched with a powerful blend of soothing and moisturizing ingredients that instantly awaken your eyes. They provide a rested, refreshed appearance and revitalize the eye contour, reducing dark circles and wrinkles. **How to use:** Apply the eye patches to clean, dry skin. The shape of the patches is designed to fit perfectly around your eyes. Relax and leave the patches on for at least 10-20 minutes. Massage gently. Do not rinse.

	TRADE NAME	INCI NAME	%	FUNCTION	SUPPLIER
	Distilled water	Aqua	qsp	Vehicle	-
A	Sodium Citrate	Sodium Citrate	0.50	Viscosity Controller	-
	Citric acid	Citric acid	0.50	pH Adjustment	
	Vegetable Glycerin	Glycerin	10,00	Humectant	-
B	Butylene Glycol	Butylene Glycol	15,00	Humectant	-
	CARBOGREEN EA	***Zea mays* (Corn) Starch, *Cyamopsis tetragonoloba* (Guar) Gum and Sodium Carrageenan**	**10.00**	**Texture, Sensing Agent, Thickener, Viscosity Controller**	**ASSESSA**

PROCEDURE: Add phase A to a container and start stirring until dissolved. Mix phase B in a separate container and gradually add at the main container at room temperature with vigorous stirring. Heat to 65°C. Afterwards, add phase C, D, E and F. After everything is homogeneous, add the still hot formulation to the final product packaging and let it cool.

FORMULA SPECIFICATION:
- pH: 5,0 - 5,2
- Natural Index ISO 16128: 96,55%

The formulation was developed and tested in our laboratories using the specified ingredients and percentages. Assessa is not responsible for changes that may occur due to modifications made without further testing. It is the client's responsibility to verify the stability of the formula to ensure its safety and compliance with the laws and patents applicable in the country where the finished product will be used.

ASSESSA's raw materials:

CARBOGREEN PLATFORM In this formula, CARBOGREEN EA is the raw material used to give it the jelly-like texture. It reacts with sodium citrate and gellifies after cooling. After applying it to the skin, it leaves a light, pleasant, powdery sensation.

HYPSKIN represents a new generation of active skin care ingredients. It modulates 507 genes in human keratinocytes and fibroblasts, revealing intense activity in the dermis and epidermis. Among its benefits are:
- Increases cell renewal (matifying action);
- Reduces and whitens skin spots;
- Improves the evenness of the skin tone;
- Stimulates microcirculation – makes the skin more radiant;
- Stimulates the synthesis of the dermal matrix;
- Improves the structure, density and firmness of the skin;
- Reduces the amount, size and depth of wrinkles;
- Softens the microrelief of the skin;
- Improves skin texture.

ACTIMULSI GA20 is a natural multifunctional bioactive derived from the scar exudate of Acacia senegal, which improves the sensorial properties of formulas, providing a soft touch.

QUIDITAT NWP is a high-performance bioactive composed of active cucumber biomolecules, potentiated through the formation of a synergistic polymeric network with seaweed polysaccharides. Provides anti-inflammatory, soothing and spot reduction effec**t.**
